

# KIT 'N' Caboodle™

## Glue Gun Instruction Manual

Please read these instructions carefully before use. Please keep these instructions safe for future reference.

### IMPORTANT SAFETY INSTRUCTIONS:

- Please use 5V/1A USB adaptor for charging.  
Any non-compliant chargers may cause damage to the Kit 'N' Caboodle™ Glue Gun.
- Do not store or use in a location where the temperature exceeds 40 degrees.
- We recommend using Kit 'N' Caboodle™ Glue Sticks to ensure compatibility.  
This is a high-temperature glue gun, usage of different dimension or type sticks may cause inverse flows, causing damage to the glue gun.
- The nozzle and the melted adhesive reach high temperatures whilst in operation, therefore it is advised not to touch these elements or use them with explosive or flammable materials.
- Please power off if not in use within 15 minutes, avoiding any inverse adhesive flow damage.
- It is normal to see some smoke at the first use, it will disappear after 30 minutes.
- Always keep the rear slide block clean, ensure any insertion of sticks into the heating chamber is smooth.
- Store the glue gun in a dry and ventilated location.
- Use the built-in safety stand whilst the glue gun is not in use.
- Please keep the Kit 'N' Caboodle™ Glue Gun out of reach of children. This is not a toy.
- Make sure the glue gun is fully cooled before storing.
- Always use the glue gun in a well ventilated location.
- This appliance is not a toy and must not be used by children or persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge until they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.

**CAUTION: Some parts of this product can become very hot and cause burns. Particular attention has to be given where children and vulnerable people are present.**

**WARNING:** In order to avoid overheating and risk of fire, do not cover the glue gun.

# KIT 'N' Caboodle™

## Glue Gun Instruction Manual

### OPERATING INSTRUCTIONS:

- Charge the Kit 'N' Caboodle™ Glue Gun before using.  
To charge the Glue Gun simply insert the Micro USB provided into the port located in the Glue Gun handle and connect cable to power source.  
Whilst charging, the LED light will display **RED** and **GREEN** once fully charged.  
The light will display **BLUE** while the glue gun is in use.
- Gently insert the Kit 'N' Caboodle™ Glue Stick into the melting chamber through the back of the Kit 'N' Caboodle™ Glue Gun and push it forwards until it goes no further.
- Turn the power on and pre-heat for 3-5 minutes.
- Pull the trigger to squeeze the melted adhesive out.

**WARNING:** Please DO NOT pull out any remaining glue sticks at the end of use, it may damage the glue gun severely. You can use the remaining glue next time.

The chamber has an aperture to show the amount of glue left, once empty you are able to refill. The Glue Gun can be turned on or off when refilling with Kit 'N' Caboodle™ Glue Sticks, however please be careful of heat if the Glue Gun is turned on.

External areas may get hot whilst the Glue Gun is heating.  
We recommend placing the Glue Gun on a heat proof mat whilst completing this stage.
